APRIL 2011

WEBSITES - Are You Putting Them to Good Use CONTINUED from Page 3 . . .

Now is the time for municipalities and even school districts and counties, to create websites that are always 'on'. The private sector is well into the era of information/ data sharing and doing business online. It's time that we in the public sector recognized websites as a key service offering."

"According to a 2009 media study, 80 percent of those 18-24 first go to the internet when researching community events and resources - before newsletters, bulletin boards or even a visit to the Town Hall. 70 percent of those 25/34, 50 percent of those 35-49 and 30 percent for those 50+ also go to the internet first. This is a key motivation for municipalities, no matter what size, to design and build websites that are able to meet their resident's and visitor's needs. Many municipalities aren't aware that their residents want more from their municipal website.... As many municipalities move to shorten workweeks, an effective web site - available 24/7 - can help fill the gap."

You can find links to most of the municipal websites in our three counties at: <http://www.southerntierwest.org/html/municipalsites.htm>. Also go to the New York State website (www.ny.gov) Look under Government and Local Government Information for links to other websites around the state. There is a great variety of sites - good and bad. Consider providing more information and easy access to your residents and visitors. It is good to involve personnel and residents when considering content. Review other websites for ideas. Talk with other officials about how their site was done and who created it. One of the most important ingredients in any website is to keep it up to date. It is only as good as the information available in it! ■

EDITORIAL *by Eileen Weishan*

GREETINGS FROM STAFF AT SOUTHERN TIER WEST . . .

Registration has been mailed to local officials in western New York for the 18th Annual STW Local Government Conference to be held on May 11, 2011 at Houghton College. We look forward to seeing so many of you on that day. Our committee has been planning this program for many months with the intent of providing you a varied, interesting, and relevant program. Many of these programs will be of interest to a variety of local officials. Make sure you look for the numbers that identify which program is appropriate for which official. We have included programs on infrastructure funding, disaster planning, internet security and banking, insurance, stress management, watershed, hometown event planning and much more. Credits will be available for Justices, Code Enforcement Officers, Water and Wastewater Operators.

This year the Opening Session will be held at 8:45 at the Recital Hall in the Fine Arts Building. After a brief welcome and important notes for the day, Rick Washburn, Director of Training for the NYS Commission on Integrity, will talk briefly on Ethics 101:

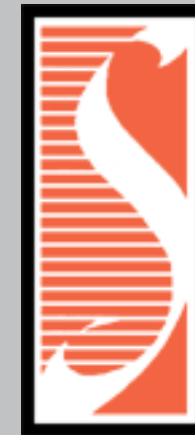

According to the National Government Ethics Survey® in 2007, "nearly six in ten government employees saw at least one form of misconduct in the past twelve months. The level of misconduct observed is alarmingly high at the state and local levels (57 and 63 percent respectively)." How are New York State employees, government officials, and Public Corporations regulated in the ways of ethics, political activities, and post-employment rules after leaving government service? Do you know the history? You may be surprised.

He will continue conversation on ethics in a 9:45 session.

We realize that many municipalities have drastically cut funding for travel, training, and other "unnecessary" expenses. Attending conferences and training programs around the state is more difficult. We strive to provide a quality program at low cost and closer to home - "a bigger bang for your buck"! We hope you agree and will plan to attend.

You can register many ways: download the program and registration form from our website then register online, or mail/ fax in your form.

If you have ANY questions, please give me a call or email: 716-945-5301x207 or eweishan@southerntierwest.org. ■

BRIAN PASCHEN
Transportation Program Manager

STW STAFF

Brian C. Paschen, Transportation Program Manager/ Community Assistance Specialist has been with Southern Tier West Regional Planning and Development Board since October of 2006. Paschen has been awarded a B.A. in Political Science (Political Economy) from SUNY Fredonia, as well as an A.S. in Business Administration from Jamestown Community College. Paschen has served many years of service as a public official in the capacity of Planning Board, Zoning Board and School Board Member.

As the Transportation Program Manager, Mr. Paschen works with the region's stakeholders in the area of Transportation Planning. Working with Federal, State and local officials, the Southern Tier West Transportation Program is focused on economic development, safety, security, increased accessibility of mobility options, environmental stewardship, enhance connectivity between different modes of transportation, preservation of the existing transportation systems, as well as, promoting consistency and coordination of transportation improvements at the state and local levels.

Mr. Paschen also works under the direction of the STW Local Government Program. As the program that has served as the backbone of STW's programming direction, Mr. Paschen's responsibilities include meeting with each of the municipal officials associations of the region, and coordinating training opportunities for the local highway associations in the southern tier west region. ■

A native of Portville, NY, **Tom Barnes** graduated from the Cornell University College of Arts & Sciences in 1977, from the Cornell University Johnson School of Management in 1980, and from the State University of New York at Buffalo Faculty of Law and Jurisprudence with a Juris Doctor in 1982. Tom has taught at Cornell University, Mercyhurst College, Ithaca College, and Alfred University. He joined Southern Tier West's staff in 1986.

Tom coordinates the U.S. Department of Commerce Economic Development Administration (EDA) program that Southern Tier West administers. This entails annual development of a Comprehensive Economic Development Strategy (CEDS) document for the region, helping develop projects for EDA funding, and working to obtain EDA funding for those projects.

Tom also works with communities, agencies, and non-profit corporations to help conceptualize projects, funding advice, and grantsmanship assistance. Tom has experience working with federal (e.g., ARC, HUD, EDA, USDA RD, USDA RU, DOT etc.), state (e.g., ESDC, DOT, etc.), and Foundations (i.e. Kellogg Foundation, etc.) funding sources. .

As Corporate Secretary for the Southern Tier Extension Railroad Authority (STERA), Tom assists STERA with corporate operations, regulatory compliance, railroad rehabilitation project administration, grantsmanship, and web site management (www.ccasstera.org).

As Loan Committee Chairman for the Western Region Corporation (WRC), Tom assists WRC with corporate operations, small business loan fund management, new program development, regulatory compliance, and grantsmanship.

Tom currently is the Chairman of the City of Olean Planning Board and the President of the Cattaraugus County Arts Council. He currently sits on the City of Olean Zoning Ordinance Revision Committee and the City of Olean Airport Planning Committee.

In 2009, Tom was awarded the Brooks Patterson Community Leadership Award by the Cattaraugus County Planning Board for "outstanding leadership and years of dedicated service in Planning, Development and The Arts in the City of Olean, Cattaraugus County and the Southern Tier West Region of New York State." ■

TOM BARNES

Sr. Regional Economic Development Coordinator

BROADBAND DEVELOPMENT INITIATIVES

The Southern Tier West Regional Planning and Development Board (Southern Tier West) is committed to providing universal high-speed Internet access to all citizens, businesses and visitors in the three-county region of Allegany, Cattaraugus, and Chautauqua Counties.

Southern Tier West has engaged the public sector, private sector and not-for-profit organizations to provide an innovative broadband solution to areas in Chautauqua, Cattaraugus and Allegany Counties that do not have access to affordable broadband services. The Goal of the project partnership is to increase the physical access to broadband Internet services to all citizens, businesses and visitors within the project service area in the Southern Tier West region. The Objectives of the project are to:

- *Provide a broadband solution capable of delivering broadband service today (and into the future), in areas with no broadband access*
- *Continue to provide assistance to local governments to develop e-Government services that will foster the adoption of the technology by those in need of government services*

Southern Tier West views the deployment of broadband across our region important from an economic development perspective, broadband access allows for an increase in

telecommunications productivity, improved access to business intelligence, and better connections between sellers and buyers in a global marketplace. From the perspective of a social change agent, telecommunications can increase participation in community affairs, enrich educational opportunities, and generally improve quality of life by making more choices available to all people.

The regional planning board believes that a wireless solution is not only the most practical, but also the most flexible in serving the needs of our three county region. Traditional providers who use copper and fiber-based solutions have ignored these portions of Chautauqua, Cattaraugus, and Allegany Counties for far too long. In these locations that only have dial-up Internet service, which is more the norm than not, it is a very frustrating experience due to the age of the infrastructure. A reliable connection is at times most difficult to achieve, and with the loss of data and subsequent loss of Internet transmission, it is most difficult to sustain.

The proposed wireless system offers a level of flexibility that cannot be realized by many other solutions, especially those seen in rural areas. From experience, it is known that Voice Over IP is not a technology that can be utilized over satellite Internet service. Another advantage of the proposed wireless service in comparison to satellite is its cost. While most satellite providers charge a minimum of \$50 per month, Southern Tier Wireless, Inc currently provides Internet

service for \$33.95 per month and has greater functionality. A business or individual can reasonably expend \$60 per month.

Southern Tier West is in the process of assembling a regional project that would significantly decrease the locations that are underserved in terms of broadband across our three counties by partnering with numerous municipalities within our region. The application would use local cash match from municipalities to leverage both Federal and not for profit dollars in financing this project. The project encompasses utilizing 17 tower locations across the region to deploy broadband services to underserved areas.

The budget for this project is \$380,000. Southern Tier West is applying for \$190,000 from the Appalachian Regional Commission and \$55,000 from the Southern Tier West Development Foundation. The remaining monies need to be raised from other partners within the region. The remaining \$135,000 can be reached by twenty-seven (27) municipalities committing a one-time match of \$5,000 over the next two years to fund the match for this project.

Collaboration, experience, and knowledge make this project feasible. The collaboration between the public sector and private sector entities will make affordable access to broadband a reality for an area that has been left behind by the advancement of technology. ■

ATTENTION COMMUNITY GIS USERS!

The new Community GIS Flex Viewer is now online at www.CommunityGIS.com. The new version utilizes the ESRI Flex API version 2.2. Key upgrades to the viewer include the latest county parcel data for the region and the new Google Street View Widget. Users still have the option to view data using the old viewer interface as well. For more information on the new Community GIS Flex Viewer or the Community GIS Program in general, contact John Buzzard at jbuzzard@southerntierwest.org or (716) 945-5301 x 208.

COMING SOON! - - iPhone/iPod Touch Access to Community GIS via "ArcGIS for iOS" FREE in the Apple App Store ■

MUDDY STORM-WATER BLUES

Storm Water Equipment and Materials Demonstration Days: April 29, May 17, and May 19, 2011

Three Muddy Storm-Water Blues Stormwater Equipment and Materials Demonstration Days have been scheduled in the Southern Tier West Region. The three county Soil & Water Conservation Districts and Southern Tier West have joined forces to present this opportunity for highway officials, contractors, site developers, and all other interested parties to learn best management practices for erosion and sediment control and **much MORE**.

- In Chautauqua County, the Demonstration will be held on Friday, April 29 from 8:30 am to 4:00 pm at the North Harmony Senior Citizens Center, 5377 Stow Road and Tri-James Gravel Pit in Stow.
- In Cattaraugus County, the Demonstration will be held on Tuesday, May 17th from 8:30 am to 4 pm at the Town of Great Valley Highway Department, 4808 Route 219 in Great Valley.
- In Allegany County Muddy Storm-Water Blues Demonstration Day will be held Thursday, May 19th from 8:30 am to 4 pm at the Allegany County Fairgrounds in Angelica.

products, and conduct demonstrations of various equipment and products throughout the day. This is the number **ONE** opportunity in WNY to view these products all in **THREE** locations. **JOIN US** for the day or stop in for a few minutes.

In addition to the equipment demonstrations and displays being provided throughout the day, specific presentations and demonstrations are scheduled for the morning and afternoon. All presentations, demonstrations and displays may vary depending on the county location. This year's **Presenters and Exhibitors** include: Everett J. Prescott, Inc., NYS Department of Environmental Conservation, Chautauqua County Soil & Water Conservation District, Allegany County Highway Department, Re-Tread Products, Inc., Southern Tier Supply Co. and North American Green. Many more vendors are planned to be available at each location.

The morning sessions start at 7:30 a.m. with Check-In and Refreshments followed by presentations and demonstrations starting at 8:30 a.m.

- "Keys to Jobsite Compliance" - NYSDEC
- "The Evolution of Jobsite Sediment Control Technology" - E. J. Prescott, Inc.
- "Turf Reinforcement Mats & Their Applications" - North American Green
- "Home of the Tire Log" - Re-Tread Products, Inc

The afternoon sessions begin with lunch at noon followed by presentations and demonstrations starting at 1:00 pm.

- Everett J. Prescott, Inc. - Demonstrations on Erosion Control Blankets, Turf Reinforcement Mats, Dewatering, Storm Water Management, Gabions, Permeable Driveways, and Sediment Control
- Chautauqua County SWCD or Allegany County Highway Department - Demonstration on Hydro Seeding
- Other presentations and demonstrations to be provided may vary depending on the county

No Admission Fee - Register Now

For Chautauqua County Event, a Complimentary Lunch Ticket will be provided for those who pre-register by April 25th. To register and obtain further information, please contact Chautauqua County SWCD at 664-2351, extension 3 or email: chaut-co@soilwater.org.

For Cattaraugus and Allegany Counties Events, a Complimentary Lunch Ticket will be provided for those who pre-register by May 10th. To register or obtain further information, please contact Rudin Emborsky at Southern Tier West, 716-945-5301 extension 210 or email: remborsky@southerntierwest.org. ■

Company representatives will be on hand to answer your questions, display

WEBSITES - ARE YOU PUTTING THEM TO GOOD USE?

Most of the municipalities in our counties have a website - either one page with basic information; a few pages with local laws, minutes, events, meeting notices etc.; or full site with interactive pages that might include forms to download, submit and/or pay online.

Websites are a great underutilized resource for municipalities to "get the word out" to residents. In these days when "government transparency" has become so important, a website can assist municipal officials:

Post your budget, minutes, local laws, maps, emergency information, marriage and dog licensing information, death and birth certificate requests, building code applications, local laws, public hearings, bidding information, assessment maps, pay water/sewer bills, parking tickets, event calendar with local and regional events, images of the municipality current and historical, emergency management, employment info, weather, history.

The amount of information - and styles to present the information - is endless.

A resident can download the permit application at home - or the library, fill it out and mail it or bring it to the office. Another possibility is payment online through credit card or paypal. Imagine how easy it would be for a resident to fill out the building use permit online, click submit and pay online.

I have looked at large numbers of municipal websites to find mailing addresses and official's names. It is amazing the variation in sites - and the variation in information accessibility. Is your contact information readily

available including phone number and mailing address? Are the officials listed - and up to date? What about directions to your municipal building?

In New Jersey, municipalities are required to have certain information available on their website in order to receive state aid. They receive points for each item included and must have a minimum of points to qualify. The following is an excerpt from an article by Scott Alexander, Mayor, Borough of Haddon Heights, NJ, printed in the publication New Jersey Municipalities with permission from the New Jersey League of Municipalities:

TRAINING SCHEDULE

Code Enforcement:

You must register online with NYS at www.dos.state.ny.us/code/edu.htm. Most classes are held from 8am to 4pm.

Course 9A is underway

April 26 - 28 Course 9B Intro to Code Enforcement Practices, Cheektowaga

May 24 - 26 Course 9C Inspection Procedures for Existing Structures, Cheektowaga

June 21 - 23 Course 9D General Construction Principles, Cheektowaga

July 19 - 21 Course 9E Residential Code of New York State, Cheektowaga

NYS Archives Region 8 Workshop Lineup:

Below is the list of Archives workshops scheduled to be held in Region 8. All of them will be held from 9:00 AM to 1:00 PM.

April 15 Managing Maps and Plans, Boston Town Hall

May 6 Preservation of Electronic Records, Niagara Falls Public Library

June 7 Electronic Document Imaging, Erie County Rath Building, Buffalo

June 24 Preservation of Historical Records, Niagara County Public Safety Facility

You must register for any of these workshops at:

www.archives.nysed.gov/a/workshops/index.shtml

Other Statewide Training:

April 6 Cornell Local Roads - Work Zone Traffic Control, Ellicottville

April 19 NYSDEC Erosion & Sediment Control Workshop, Greece Town Hall

April 26 - 28 NYS Floodplain & Stormwater Managers Assoc Conference, Rochester

May 1 - 4 NYS Town Clerks Association Conference, Buffalo Adams Mark Hotel

May 4 - 6 Association of Towns Annual town Finance School, Rochester

May 5 NYCOM New Officials Workshop, Fayetteville

May 11 STW 18th Annual Local Government Conference, Houghton College

May 9 - 12 New York Rural Water Conference, Saratoga Springs

May 18 - 19 NYS Purchasing Forum, Albany

May 24 - 26 NYCOMS Annual Meeting, Saratoga Springs

June 5 - 7 NYALGRO Annual School, Verona

June 6 - 8 2011 Highway School, Ithaca College, Corning

2010 CENSUS REDISTRICTING DATA RELEASED

On March 24th, the Census Bureau released the 2010 Redistricting (P.L. 94-171) Data for New York State. The Redistricting data provides Total Population, Age (18+), Race, Ethnicity, Total Housing Units and Occupancy vs. Vacancy for every geographic area within the state of New York - including Counties, Cities, Towns, Villages, Census Tracts, Block Groups and Blocks. We have included some of this data in this issue of the Municipal Newsletter showing population change in local municipalities as compiled by Empire State Development.

Upcoming key Census Data releases include:

MAY 2011, Demographic Profiles

- Selected population and housing characteristics
- Includes Congressional Districts of the 111th Congress

JUNE - AUGUST 2011, Summary File 1 (SF 1)

- Population counts for 63 race categories and Hispanic or Latino
- Population counts for many detailed race and Hispanic or Latino categories, and American Indian and Alaska Native tribes
- Selected population and housing characteristics

For more information on the 2010 Census data releases or activities, contact John Buzzard at jbuzzard@southerntierwest.org or (716) 945-5301 x 208.
