The “CEDS”

The CEDS is a stakeholder informed, regionally-driven economic development planning process that charts a collaborative and strategic approach to regional prosperity. The CEDS is fully updated every five years with interim annual review and evaluation sessions. We invite you to join any of the Focus Group discussions on Zoom to help us gauge progress and update the course forward.

Attend a Focus Group session

If you live or work in Allegany, Cattaraugus, Chautauqua Counties or the Seneca Nation of Indians, join any or as many of the Focus Group discussions for the topics that relate to your work, community interest, demographic, or passion. Sessions are on Zoom to accommodate as many people to participate as possible. Sessions include a review of current CEDS, regional priorities and objectives, and a roadmap of progress and changes to-date. Your input will be incorporated in the annual report and will help guide continuing investment and placemaking efforts.

Pre-registration is appreciated
